

Application Name	Printer Meter Reading and Toner Monitor
Version	2.0
Short Description	Network Printer Scanner
Supported OS	Windows (x86 & x64)
Web Page	https://www.printlimit.com/managed-print-services/
System Requirements	• Windows OS • Network Printers • A Network
Publisher	PrintLimit LLC

Description

Printer Meter Reading and Toner Monitor can quickly find out how many printers are on a network, what model they were, their page counts, serial numbers, toner levels & MAC address. The application is small, fast, & simple enough for the administrator to operate.

Features

- Quickly find printers on a network.
- Auto-detection of network address range.
- Send printer information report to email address.
- Save a default network configuration to Config.ini
- Quickly reopen report(s) into program window.
- Scan reports can be saved in either .csv or .tsv format for import into Excel, or reopened to rescan a given group of printers.
- Fast: Typically scans at a rate of 20 IPs per second

Screenshots

Main Program Window

Start New Scan opens a dialog that auto-populates with the first network address range it finds on the machine, and if crossing subnets the scan will automatically skip broadcast addresses.

Scan for Network Printers

IP Address Range to Scan...

Start IP: 169 . 254 . 0 . 1

End IP: 169 . 254 . 255 . 254

Subnet Mask: 255 . 255 . 0 . 0

Current SNMP Community Name

☐ Edit public

There is an Administrative Options dialog (Access from scanning menu) that allows setting of a default IP Address range, default SNMP Community name, and adjustment of the wait times if you are running the scan via VPN on a remote network etc. Clicking Save will save the settings to Config.ini in the local directory for future use.

Settings

×

ICMP Wait Time (in Milliseconds)

300

If it's missing devices, increase the ICMP wait time.

SNMP Wait Time (in Milliseconds)

2000

If it's missing information, increase the SNMP wait time.

Default Network Configuration

Start IP: 192 . 168 . 0 . 1

End IP: 192 . 168 . 0 . 30

Subnet Mask: 255 . 255 . 255 . 0
